

March 11, 2025

1:00 pm - 2:00 pm

Attendees: Gabrielle, Kacie, Harper, Viet

Current Team leader: Harper Wood

Updates:

- Viet fixed bug with database where it only allowed one user sign up per session
- Added more logic to the sign up page to confirm passwords match
- Still one error message but not affecting anything

Meeting:

- Team shared progress updates and plans for the week
- Discussed proceeding with user authentication
 - JSON Web Tokens (JWTs)
 - Their function and structure
 - How they will be used in our app to ensure authentication before exposing personal user data
 - Backend meeting planned for Thursday to work on user authentication together

To Do:

- Backend
 - User authentication
 - Database storing and testing for correct credentials
 - JSON Web Tokens for added security and ensuring authentication before personal data can be viewed
- Frontend
 - Dummy pages (finish by Friday, March 14th)
 - Priority: expense logging, dashboard, account
 - Figma design updates (finish by Friday, March 28th)
