

**April 11, 2025**

2:15 pm - 3:00 pm

Attendees: Gabby, Kacie, Viet, Thenn, Professor Alagar

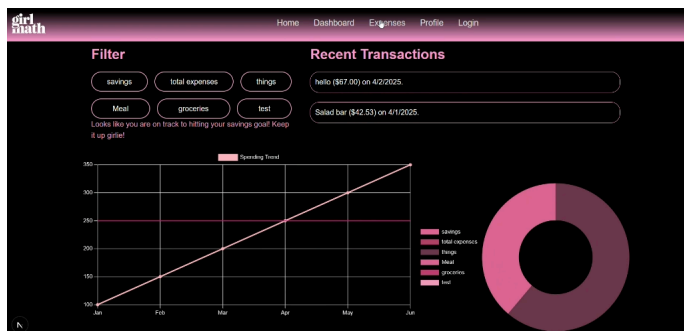

Current Team leader: Viet Vu

### Updates:

- Team's progress over the last week:
  - Frontend:
    - Worked on mainly dashboard page
    - Misc quality of life updates to profile, home page, sign up, expenses
    - Added view all expenses page that lets you sort by timeline
  - Backend:
    - Dashboard reflects database data in the pie chart
  - Whole team:
    - Integration, merging

### Meeting:

- Is the budget line cumulative? Or is it monthly?
  - For future demos, have better dummy data than just a line
  - The straight line doesn't make much sense
- Move the "Looks like you're on track!" away from the filter buttons
  - Yes, we'll move it beneath the line graph

- Color scheme for the dropdowns on profile: try keeping it consistent with the buttons on expenses page, with dark pink background and white text
- Add data validation for budgeting goals: category budget sums should not exceed budget on "total expenses"
- Think about layout of the expenses page, left has too many things
  - We will convert expenses to a popup
- Final presentation May 2nd, 10 minutes to present, 5 minutes for questions, 15 minutes total
  - Slides and demo

### To Do:

- Frontend:
  - Add indication that category is a dropdown

- Take care of all expenses edge cases
  - Home page aesthetics (add line)
- Backend:
  - Fetch data from database as requested based on filters chosen
  - Voice memo implementation
- Everyone
  - Final report
