

April 25, 2025

2:15 pm - 3:00 pm

Attendees: Kacie, Harper, Viet, Gabby, Thenn, Dr. Alagar

Current Team leader: Kacie Yee

Updates:

- Team's progress over the last week:
 - Frontend:
 - Worked on expenses and all expenses
 - Added loading spinners
 - Worked on app styling
 - Backend:
 - Optimized voice memos and tested receipt upload and voice logging functions
 - Edit expense functionality added
 - Worked on dashboard charts
 - Whole team:
 - Integration, merging

Meeting:

- Demo of entire app
- Professor suggested flagging when user goes over budget in a category and indicating this clearly to the user
 - They may not even notice going over a category budget in the current app workflow
- Professor requested that we present slowly in the demo, currently going too fast
 - We are super familiar with our app so we go a little too quickly
- Professor proposed creating a new user in the demo and showing how to set everything up from scratch
- Professor asked about responsiveness
 - Professor wanted the app to look ok on a smartphone
 - If time, he would like us to fix that
- Professor gave advice on demo
 - Random order (we will know at least 15 mins in advance)
 - Go slowly
 - Thinking of it as a pitch for a competition like Shark Tank, want to raise money and market the product
 - Important skill to come up with an idea, present and pitch it
 - Take it very, very seriously

To Do:

- Frontend:
 - Styling of goal text
 - Change goal to category and change dropdown to simple text input

- Scrolling bug
 - Line design
 - Responsiveness if time
- Backend:
 - Viet: Flagging over budget and notifying user on dashboard
 - Harper: Assist in looking into a persistent styling issue, deployment if time
- Everyone
 - Final presentation, report
