

## March 4, 2025

1:00 pm - 2:00 pm

Attendees: Gabrielle, Kacie, Harper, Viet

Current Team leader: Harper Wood

### Updates:

- front end working on dummy pages
- back end working on database schema but needs dummy page

### Meeting:

- discussed updates on team progress and current blockers
- updated software architecture diagram with pointers from Friday meeting
- talked about how to get everything onto team leader's computer for presentation on Friday
- new plan for notes on Friday meetings: rotation where another person takes the notes for the meeting minutes while team leader is presenting
- pinged TA for updates on assignments due on Friday for the course
  - no need to submit anything on Friday! 😊

### To Do:

- backend (this week)
  - connecting API
  - creating database tables
  - starting to implement user auth
- frontend
  - touching up wireframes
  - setting up dummy pages by Friday, Mar 7
    - at least have empty pages (skeleton set up)
    - navbar would be nice
  - making Figma ✨pretty✨ by Tuesday, Mar 11
