

Week: Saturday, 3/29 — Friday, 4/4

Team leader: Viet Vu

- Review of last week's tasks
- New tasks for the next week
- Technical issues/challenges

Harper Wood (Hours worked = 10)

- Tasks completed:
 - Updated Azure subscription for continued access
 - Fixed a bug with the receipt upload logic
 - If the API does not return a field (for example, merchant name not found on receipt), leave blank and let user fill in themselves
 - Researched voice memo feature feasibility and planned for implementation
 -  Voice Memo Research
 - Created and set up Azure resource for Whisper speech-to-text
 - Added logic to hide the navbar when the user is not logged in and display it once the user is
 - Cleaned up debug console logs in server side code
- Tasks for next week:
 - Implement voice memo feature

Gabby Kuruvilla (Hours worked = 10)

- Tasks completed:
 - profile page styling
 - budgeting goals section
 - hide password but give option to view
 - deleting budget option
 - expenses page
 - delete functionality
 - "view all expenses button/routing
 - all expenses page
 - updating logo design and integrating back into the application with routing (navbar, home page)
 - home page = what app loads automatically instead of a splash screen
- Tasks for next week:
 - certain functionality only once user is logged in
 - "login" should become "logout" in navbar
 - button functionality (ex: password visibility toggle)
 - all expenses page (filter by timeline)

- make “recent expenses” show concise info
- home, login, expenses styling inconsistent but fine on reload
 - globals.css clashing with other css files?
- only able to edit budget goals after clicking button - then becomes inputs (profile)

Viet Vu (Hours worked = 10.5)

- Tasks completed:
 - Changed profiles page to reflect values in the database
 - Previously static values
 - Completed get, update, and delete functions for budgets
 - Reorganized layout of profiles page
 - Completed submission from frontend to database for a new budget
 - Added frontend elements to profiles page for updating and deleting budget values
 - Started working on a drop-down menu for categories in the expenses page
 - Can still manually input a new category
 - Added ability to create a new budget category by inputting a new category into the expenses page
 - Team leader tasks
 - Fixed a drop-down menu bug with Harper
- Tasks for next week:
 - Expenses page checks for pre-existing categories but profile does not
 - Start working on dashboard page
 - Calculating data, displaying data
 - Figure out what to do when a category is deleted

Kacie Yee (Hours worked = 10)

- Tasks completed:
 - Completed front end for the profile page
 - Started working on getting custom fonts into our project
 - Reorganized layout of the profiles page after discussing with back-end
 - Added popup to the profile page
 - Merge with Gabby and the rest of the team
- Tasks for next week:
 - Look into graphs and ways to display data for the Dashboard page
 - Get custom fonts working
