

**April 18, 2025**

2:15 pm - 3:00 pm

Attendees: Kacie, Harper, Viet, Thenn

Current Team leader: Kacie Yee

### Updates:

- Team's progress over the last week:
  - Frontend:
    - Expenses page restructured
      - Column widths altered and columns rearranged
      - Voice memo interface implemented side by side with receipt upload
    - Profile page modified to enable and disable goal editing
    - Styles updated across app
  - Backend:
    - Dashboard populated with actual user expense data
      - Line chart reflects spending over months
      - Donut chart reflects portion of spending per category
    - Filtering by category added to Dashboard
    - Voice logging feature fully integrated into Expenses page
      - Audio recording → Whisper → jsPDF → Azure → populate form fields
      - Regular expressions implemented to extract price and date more accurately from transcription
    - Logout added
  - Whole team:
    - Integration, merging

### Meeting:

- What happens if I don't say a field in my voice memo?
  - That field is left blank for the user to fill in
  - Expense not submitted to database until user fills all fields and clicks submit
- Presentation discussed
  - 15 minutes per team
    - 10 minutes presenting slides and demo (live demo since web app)
    - 5 minutes for Q&A with professor, TA, and other students
  - 3-4 slides is sufficient
    - 1 with each member's individual contributions
    - 1 with the high level design (system architecture diagram and any other relevant details)
    - Any other slides that help explain the project
- Report due May 9th or May 11th, the week after demos
