Week of 2/16

- Review of last week's tasks
- New tasks for the next week
- Technical issues/challenges

Gabby
- last week
  - initiated project with Next.js
  - brainstormed front end design and page layout
- technical issues/challenges
  - github access trouble - not able to delete files once i commit them
  - need to reupload our code in a better organized manner

Viet
- Met with team on 2/18 to discuss environment setup
- Installed MongoDB
- Cloned Github repo
- Researched and implemented how to connect MongoDB to our Next.js files
  - mongoose

Harper
- Last week
  - Met with team on Tuesday 2/18 to discuss UI and environment setup
  - Signed up for Azure and created Receipt Form Recognizer resources
  - Tested API on my receipts in Document Intelligence Studio
  - Cloned Github repo
- Next week
  - Research authentication with MERN stack
  - Get API endpoint/key and test receipt API calls
- Technical issues/challenges
  - Receipt API is fairly accurate but we will likely need to give the user the option to manually override the spending category in the event that it is incorrectly recognized
    - ex. receipt for clothes recognized as "supplies", give user dropdown option to switch to "clothing"

Kacie
- Initiated our React Project with Next.js
- Started ideating front-end design for app on Figma
- Cloned the Github Repo to have our project on my personal computer to start coding
