Week: Saturday, 4/19 — Friday, 4/25

Team leader: Kacie Yee

- Review of last week's tasks
- New tasks for the next week
- Technical issues/challenges

Kacie Yee (Hours worked = 10)
- Tasks completed:
    - Reformatted expenses on Expenses and AllExpenses page
    - Fixed padding between expense info, category, edit, and delete buttons on the AllExpenses page
    - Changed margins for Add with Voice
    - Changed the loading bar for voice memo to be in the right spot and correct color
    - Added loading spinning gif for profile
    - Rewrote the code for picking colors on the pie chart on Dashboard, now picks the furthest values in between two shades of pink for better visual clarity
- Tasks for next week:
    - Fix scrolling bug on AllExpenses page
    - AllExpenses page doesn't direct you to log in when your account times out
    - Add expenses panel in All Expenses for the edit button code
    - Presentation!

Harper Wood (Hours worked = 9)
- Tasks completed:
    - Optimized voice logging for expense tracking
        - Fixed the regular expression to recognize prices over $1,000 (numbers with commas)
        - Made it so if the year is not explicitly stated, the current year is assumed (user can say April 1st or 4-1 and date will be populated with this and current year)
        - Implemented code to recognize categories from the user's existing category list (if user says "groceries" and groceries is one of the user's categories, this is the category that will be populated in the form)
    - Optimized loading bar start/stop times while receipts & voice memos are processing

- - Tested receipt processor and voice logging thoroughly to make sure all use cases were covered and there were no bugs
  - Tasks for next week:
    - Work on presentation and report

Gabby Kuruvilla (Hours worked = 10)
- Tasks completed:
  - goal input section disable feature works
  - edit profile button on profile page - viet doing backend?
  - view all button on dashboard under the recent expenses
  - all expenses now displayed from most recent to least recent
  - fixed edge case - expenses were displaying the dates as a day later
  - temporary home page line design
- Tasks for next week:
  - finalize home page line design - calculate the points needed for bezier curve
  - try to figure out hydration issue
  - presentation preparation

Viet Vu (Hours worked = 9.5)
- Tasks completed:
  - Made the 'edit goals' button toggle between input fields and regular text
  - Sorted the doughnut chart in descending order
  - Changed the budget line on the line chart to display a certain budget's goal if that goal is the only one selected
    - Also added a label to display the value and the percentage of the budget spent for the current month so far
  - Implemented ability for a user to edit their expenses
    - Available in both the Expenses and View All Expenses pages
      - Synchronized changes within the two pages
      - Routed the View All Expenses page to the main Expenses page upon editing
  - Caught a bug regarding recent transactions on the Dashboard that still displayed data of the last deselected category when deselecting every category
- Tasks for next week:
  - Presentation
